O R D E R

On December 19, 1990, South Central Bell Telephone Company ("South Central Bell") filed with the Commission a proposed tariff for network services which are to be offered as part of the Open Network Architecture process.

On January 17, 1991, AT&T Communications of the South Central States, Inc. ("AT&T") filed a motion to intervene, but subsequently has filed a motion to withdraw its request to intervene.

After reviewing the proposed tariff, the Commission finds that additional investigation will be necessary for the new rate element Exchange Access Premium Charge. Accordingly, all portions of the filing associated with this element must be suspended.

Further, the Commission finds that the network services which are to be offered on an unbundled basis should be approved on an interim basis subject to further investigation by this Commission. These services are:
